## A very warm welcome to the Interdisciplinary Center for Neuroscience of Valparaíso (CINV)

We are deeply honored to welcome researchers, students, professionals, and collaborators from Chile and abroad. Each visit represents an opportunity to share knowledge, strengthen collaborative networks, and continue building an open, interdisciplinary scientific community committed to the advancement of neuroscience.

Since its origins, CINV has maintained a close relationship with the University of Valparaíso, an institution that has supported its development and where much of the scientific research that drives our Center is carried out.

We hope this guide will accompany you from the planning of your trip through the end of your stay, providing useful information so that you can fully enjoy your experience in Valparaíso and within our scientific community.

**It will be a true pleasure to welcome you.**
